### Death and Taxes

April 15th is the deadline for filing your federal and state income taxes. While an extension is possible, we all know that filing is required. You can put it off but you cannot avoid it.

We generally put a lot of effort into preparing for tax day. Perhaps you hire someone to file for you. Perhaps you keep receipts for itemizing.

Judgment Day is coming. You cannot avoid it. And unlike Tax Day, you cannot receive an extension. You cannot hire someone to prepare for you.

Are you ready for Judgement Day? Please don't put off preparation. Now is the time!

Eddy, Michael and Pat

April 7th, 2019

Hello and welcome to worship! This is an article from *Focus Press* from our gospel meeting speaker, Brad Harrub. This is one he did called "Evolution's Back Door Into Your Home."

At 3:00 p.m., mom stops folding laundry and begins contemplating what to fix for dinner. Suddenly, she hears the unmistakable sound of little feet running down the sidewalk. Within seconds, the front door bangs open and little Johnny comes running down the hallway into a brightly lit kitchen.

As mom frantically tries to keep the mud tracks off the floor, little Johnny circles round and round, shouting: "Guess what video we watched today at school!" With a dustpan in one hand, and an old wooden broom in the other, mom looks up and replies, "What Johnny?" Johnny lets out an ear-piercing scream and yells, "Dinosaurs!" And without taking another breath he begins rattling off the names of dinosaurs: "We saw a Brachiosaurus, Apatosaurus, Deinonychus, Triceratops, Stegosaurus, Spinosaurus, Tyrannosaurus rex, and a Velociraptor! Oh, mom you should have seen them. They were so cool. I want to get some books about them. Can we please? Can we mom?"

And so, without any advance notice, Mom is thrown into the realm of the dinosaurs. Only minutes ago she was folding laundry, wishing she were elsewhere. Now she would be content to wind back the hands of time and fold those clothes. No one warned her that motherhood included needing advanced degrees in dinosaur trivia.

For the next several days, the questions continue. "When were the dinosaurs around? Why did they become extinct? Were they cold-blooded or warm-blooded?" Poor mom—she can cook dinner, wash clothes, clean the kitchen, watch the children, and talk on the phone all at the same time...but dinosaurs? All mom knows about dinosaurs can be summed up like this: They were big, and they were green. Aside from that, mom has to rely on books to provide Little Johnny with the answers that he so desperately seeks.

Within a week, their house has been turned into a virtual dinosaur hall of fame. Dinosaur books, puzzles, games, and action figures can be found in just about every room. Every dime Little Johnny had saved up has been spent on dinosaur books. You know the ones—the books with big colorful pictures on slick glossy paper. The same ones that usually somewhere around page one, paragraph one, say something like, "All life on our planet changes and develops over many millions of years. This is called evolution. Millions of years ago the dinosaurs roamed the Earth, long before man ever existed."

Even those "harmless" sticker books that she bought Little Johnny mention that dinosaurs roamed the Earth 225 million years ago. And so, within just a few weeks Little Johnny has filled his brain with dinosaur trivia; but he has also laid down the planks on which the evolutionary theory will one day be built in his belief system.

In most homes, children are being indoctrinated with evolution and atheism long before parents are even aware a battle is going on for the soul of their children. Parents, it matters what your children are putting into their minds. Please invest the time and energy into making sure what they are studying and embracing harmonizes with God's Word. Yes dinosaurs are amazing creatures! Just make sure you share with your children how those amazing creatures fit into God's incredible creation!! October 3, 2018 by Brad Harrub
